

CAP

Le Coefficient d'Ajustement Pétrole (CAP) est un coefficient lié au prix du carburant. Il dépend du mode de transport et de la destination. Il s'applique sur le montant des frais d'expédition HT après remise (services optionnels, suppléments tarifaires exclus). Il s'exprime en pourcentage et est variable chaque mois selon les conditions ci après précisées.

Cubyn Relais

Le CAP est calculé en appliquant à la part du carburant dans les frais de port (9,73%) l'augmentation en pourcentage de l'indice diesel professionnel en moyenne mensuelle (Base 100: décembre 2000) par rapport à la valeur de cet indice en janvier 2016 (soit 118,52 notre valeur de référence). Cet indice (appelé "indice CNR" ou "indice") est publié mensuellement par le Comité National de la Route (CNR).

FUEL SURCHARGE

The Fuel Surcharge is a coefficient linked to the price of fuel. It depends on the mode of delivery and the destination. It applies to the amount of the shipping costs excluding VAT after discount (optional services, supplements excluded). It is expressed as a percentage and is variable each month according to the conditions specified below.
